Barrington Packaging Systems Group

Integrating Packaging Equipment & Materials

BAGGER

BPS Mini-Baggers for Pre-Formed Bags

BPS Mini-Baggers are the perfect solution for packing pre-formed bags. They can give you tremendous labor savings, packing at speeds of up to 20 bags per minute and requiring just one employee. Paired with an auger, scale, or pump, they pack a wide range of products. Filling mechanisms - scales, augers, pumps - are also available from Barrington.
