PRODUCT INTRODUCTION

BPS-400A (2 in 1 Shrink System)

The BPS-400A utilizes a glass fiber sealing knife slot and high temperature stick free L-Bar Sealing Knife for a smoke and burn free seal action. The BPS-400A produces a clean 100% seal and comes with a Perforated Roller System providing a smooth tight wrap. The easily adjustable Film Holder can accommodate various types and sizes of shrink film. The BPS-400A is equipped with a stainless steel product exit conveyor that is height adjustable and that automatically moves the product out of the machine maximizing your packing efficiency. The BPS-400A One-Step Integrated Sealing and Shrinking process minimizes space requirements. The BPS 400A is especially suitable where floor space is at a premium. Perfect for Supermarkets, retail bakeries and small retail shops, etc.
